## INSURANCE AGREEMENT

As a courtesy to our patients, we will be willing to give you any estimates that are needed for treatment. These estimates will be based on previous experiences that we have had with that insurance company, but be advised that each insurance plan is individual and unique. Please remember that this is **ONLY** an estimate and that your insurance plan is a contract between you and your insurance company!

After we bill your insurance and receive payment from them, any remaining balance **WILL BE YOUR RESPONSIBILITY!** However, if there happens to be a credit after payment is received, we will gladly refund this amount.
